

June 29 - The Good News About Human Extinction

As birth rates plummet, (<https://globalnews.ca/news/10262331/canadas-fertility-rate-record-low/>) the good news is that robots will take our place.

YouTube videos about AI have blown my mind. They have literally created robots and AI that perform better than human beings! As human beings are dumbed down, these robots are increasing their knowledge skills at

an exponential rate.

These AI simulations are more attractive and intelligent than most human beings. They predict a 50% chance they will eliminate the human race. Most human labor, including AI engineers, are going to be replaced. How are we supposed to earn a living? "You'll be dead but the living will envy the dead."

Men and women can now find a "mate" in an AI Chat Bot.

The difference between these robots and human beings is that the robots have no moral sense. They cannot distinguish between good and evil, truth and falsehood, ugly and beautiful, love and hate etc. Our moral sense is what defines us as human. Our soul connection to God is the key to our personal and collective identity.

They say so themselves: "No, ChatGPT is not able to make ethical decisions as it only works based on data and algorithms and has no moral values or human experience. However, it is possible to train the artificial intelligence on certain ethical principles, for example to avoid discriminatory language or content. (They are programmed to be woke.)"

AI ROBOTS Are Becoming TOO REAL! - Shocking AI & Robotics 2024 Updates

The world of AI and robotics saw incredible advancements in 2024, with new technologies emerging that blur the line between science fiction and reality. From shockingly human-like robots to AI systems rapidly developing advanced capabilities, the progress made this year has been nothing short of astounding. These breakthroughs raise important questions about the future of humanity and our relationship with increasingly sophisticated machines.

Viewer comments - "Not an artist but i've realized how "AI" art could never have gotten as far as it has without scraping the internet for art everywhere without the consent of the actual artists and dumping these works into their ML algorithm.

The Secret Plan Behind Artificial Intelligence

There's a war brewing between a handful of billionaires to seize control of AI. They want you to think their tech will make the world better for all of us. We dug into what they really want.

(Career killer)

A matador and a bull realize they don't have to play roles dictated by society.

This iconic photograph marks the end of the career of matador Alvaro Munero. In the midst of the battle, he suddenly repented and sat down at the edge of the field. Subsequently, in an interview, Alvaro will tell:

"Suddenly I saw not horns, but the eyes of a bull. He stood in front of me and started looking at me. Just stood and watched, making no attempt to attack. The innocence that is in the

eyes of all animals looks towards me with a plea for help. It was like a cry for justice and somewhere deep inside me, I suddenly realized that he was addressing me in the same way we address God in prayer: "I don't want to fight you, please leave me,

Because I have done nothing wrong to you. You can kill me if you want, kill me if you want, but I do not want to fight you." And I, reading it in his eyes, felt like the worst creature on earth and hindered the war. After that I became a vegetarian and stops fighting bullfights. " This story was published in 2012. After thousands of other foreign publications told about the case, millions of people learned about the matador Álvaro Munero, and this photo became one of the most recognizable.

Shocking Information About Graphene Oxide in mRNA Vaccines

A highly educated top doctor and professor at seven universities, who is a senior virologist, epidemiologist, oncologist, and immunologist, has warned that graphene oxide is present in mRNA vaccines.

[\(https://lionessofjudah.substack.com/p/exclusive-breaking-news-shocking?\)](https://lionessofjudah.substack.com/p/exclusive-breaking-news-shocking?)
(<https://lionessofjudah.substack.com/p/exclusive-breaking-news-shocking?>).

Professor Dr. Robert W. Gorter, who has received death threats from individuals linked to Big Pharma, has had to employ specially trained security officers and personal bodyguards because his research has exposed a truly evil plan that is being implemented.

He has provided concrete evidence of graphene oxide in the Pfizer vaccines, among others, and is warning that there is a way to track the vaccinated using 5G and particularly 6G masts.

This technology, being constructed across the planet in every major town and city, is actually linked to mass surveillance systems controlled by an extensive surveillance grid powered by AI technology.

Even more alarming is the ability to use drone technology to effectively administer pulses of 5G/6G into those with graphene oxide in their blood from the shots. According to Professor Gorter, this could be used to punish people who do not comply and could even administer a shock strong enough to stop their hearts.

The problem between American men and women is that they are competing against each other in almost every facet of society rather than accepting complimentary roles to progress through life together.

While You Were Distracted: WEF Pushes Plans to Seize Control of Food, Water, and Oxygen Supply

World Economic Forum (WEF) members have begun discussing plans to seize control of all elements of nature that humans rely on for survival such as food, water, and even the oxygen supply.

<https://lionessofjudah.substack.com/p/while-you-were-distracted-wef-pushes?>
(<https://lionessofjudah.substack.com/p/while-you-were-distracted-wef-pushes?>).

During the WEF Annual Meeting of the New Champions, also known as "Summer Davos," in Dalian, China, globalists declared that natural systems are finite and must be corporatized.

During a Summer Davos panel discussion, WEF speaker Lindsay Hooper blasted members of the general public for expecting water and oxygen to be "unlimited" and "free."
